Wasp UniPhoxx

UniPhoxx Specifications

Injection moulded using Impact Modified Polycarbonate 12mm in section - 87mm fork width - 47mm fork gap- 129mm overall length & 20mm diameter pinky hole . **It is designed take 19 mm Flat Bands in OTT Format & 22mm Flat Bands In TTF** - Also included pre moulded in the frame is a 5.15mm diameter tube attachment hole. This will directly accept **2050 SINGLE tubes** and attaches firmly with a 6mm ball-in-tube method of attachment.

UniPhoxx is for brace/support grip with the **WASP LOGO BADGE FACING THE SHOOTER**. The option to use or ignore the pinky hole is your choice. A fully filleted 6.5mm beveled edge on the frame edge increases into the waist of the handle and provides a comfortable platform. A radius upon the target/band-fixing side of the frame, ensures the wrap-around fingers are comfortable. Fork tips have minimal corner radii to allow for accurate alignment with the target.

TTF aiming notches are accurately positioned in the centre of the fork tips. Symmetrical Frame Geometry allows Left or Right hand hold without compromise.

A Distinctively Pocketable Frame - Exceptional Quality - Affordable & Durable.

All the features you require in a slingshot frame - all in one frame.

An Extremely Capable All-Round Target Frame - Do Not Underestimate The UniPhoxx!

SHOOT SAFE!
YOU MUST ALWAYS WEAR SAFETY GLASSES WHEN
USING THE SLINGSHOT

READ BEFORE USING YOUR SLINGSHOT

Cleaning The Frame

Luke warm water with a **mild** soap is ideal for wiping down the frame . Dry with a cloth or paper towelling. This is all that is required to clean the frame. **DO NOT** use any kind of solvents or aggressive cleaning substances.

DO NOT DRY USING A HEAT SOURCE

DO NOT MODIFY THE FRAME IN ANY WAY

Storage. Keep frame away from oils, solvents, polishes, heat sources and extreme freezing conditions. Do not store in direct sunlight. (Remember to store the slingshot away from the reach of children and minors.)

Damage To Frame

If you suspect that there is possibility of damage to the frame due to a fork hit or other impact source, fully inspect the frame and **DO NOT SHOOT** until you are totally satisfied that the frame has full integrity, with no apparent damage. Nicks, cuts, bruises & burrs to the frame must be treated in the same manner. Check. Do give your product a detailed inspection before shooting.

IF IN DOUBT THROW IT OUT!

Slingshots can cause severe personal injury or death.

REMEMBER ALWAYS - Wear safety glasses for eye protection.

Slingshots, their ammunition and possible band breakage are dangerous to your eyes.

DO NOT ATTEMPT TO USE this frame without fully understanding the safety requirements and techniques required to shoot safely. Do some research on how to aim (YouTube?)

Ensure you use an adequate ammo catch box or back stop before you shoot.

Beware of your location and surroundings when shooting - Are they **SAFE**?

DO NOT shoot at hard solid surfaces or water. Rebounds and ricochets are equally dangerous.

Slingshots should stored and kept away from minors at all times.

ALWAYS: Inspect - frame - bands - attachments & pouch for signs of wear or damage before EACH shot.

Shoot Safely and Responsibly.

LIABILITY DISCLAIMER
